

HIGH QUALITY COOKWARE & PRESSURE COOKERS

PRODUCT
CATALOGUE **2025**

Topline Home Appliances was incorporated in year 2010 with a view to tap the potential in the growing cookware market in India. The Indian cookware market is growing at a very fast pace, but till today there are very few companies who believe in producing international quality products for Indian market. This shortage of good quality cookware at an affordable price range inspired us to venture into this area.

Company launched its products under the brand name of “**INDIA GOLD**” in the market in January 2011 with a vast range and the brands and its products became a hit in the market instantly. The range included aluminum cookware, hard anodised cookware, stainless steel cookware, triply cookware and a full variety of pressure cookers to cater the different need of consumers.

The promoters of the company have an experience of over 40 years in the cookware market and have been manufacturing pressure cookers and cookware from last 25 years. With four manufacturing units around India, **Topline Home Appliances** can produce goods in high quantity and can serve customers from all over India.

We at **INDIA GOLD** cookware believes to provide vast range of international quality cookware to the consumer at an affordable price and to improve and innovate the market space constantly.
